confident**

**Extremely
confident**

OUTCOME EXPECTANCIES

These questions ask about the extent to which talking to your breast cancer patients about sexual concerns will lead to certain outcomes. Please think only about your interactions with breast cancer patients when you complete these items.

Please indicate your beliefs by circling a number for each item below using the following scale: 0 = Not at All and 10 = Very Much.

Talking with my breast cancer patients about sexual concerns will...

1. Reassure them that sexual health is appropriate to discuss in their clinic visits

0	1	2	3	4	5	6	7	8	9	10
Not at All					Moderately					Very Much

2. Reassure them that sexual concerns are common

0	1	2	3	4	5	6	7	8	9	10
Not at All					Moderately					Very Much

3. Help to identify patients who have sexual concerns

0	1	2	3	4	5	6	7	8	9	10
Not at All					Moderately					Very Much

4. Help me address patients' sexual concerns

0	1	2	3	4	5	6	7	8	9	10
Not at All					Moderately					Very Much

5. Lead to an improved intimate relationship for patients

0	1	2	3	4	5	6	7	8	9	10
Not at All					Moderately					Very Much

6. Lead to an improved overall QOL for patients

0	1	2	3	4	5	6	7	8	9	10
Not at All					Moderately					Very Much

7. Lead to an improved patient-clinician relationship

0	1	2	3	4	5	6	7	8	9	10
Not at All					Moderately					Very Much

PROVIDER OUTCOMES- BELIEFS

The statements below pertain to your beliefs about discussing sexual concerns with breast cancer patients. Please indicate the extent to which you agree with these statements using the scale below. **Please write the number that matches your response on the line next to each statement:**

- 1=Strongly Disagree
2=Disagree
3=Neither Disagree nor Agree
4=Agree
5=Strongly Agree

With regard to discussing sexual concerns with my breast cancer patients...

- _____ 1. I might become embarrassed
- _____ 2. I fear patients will react negatively
- _____ 3. The patient might become embarrassed
- _____ 4. I worry about offending patients
- _____ 5. Talking about these problems might cause undue worry in the patient
- _____ 6. I feel uncomfortable discussing sexuality with patients who are not married or in a relationship
- _____ 7. I feel uncomfortable discussing sexuality with patients who are the opposite sex to me
- _____ 8. I don't have the words to talk about sexuality with my patients
- _____ 9. I wouldn't know where to start
- _____ 10. It is not my area of expertise
- _____ 11. It is not my role
- _____ 12. I don't have enough time
- _____ 13. A third person (e.g. partner) being present creates difficulties
- _____ 14. It is not a priority of my patients
